

PROFESSIONAL SUMMARY

To build a successful career in software development by applying my technical skills and creativity to design efficient, user-focused solutions. I aim to continuously learn emerging technologies, contribute to innovative projects, and grow into a versatile and dependable developer

KEY EXPERTISE

Programming Languages: C, C++, Python, JavaScript

Database Management: MySQL

Version Control: Git and GitHub

Web Development: HTML, CSS, Bootstrap, jQuery

EDUCATION

MAEER's MIT Arts Commerce & Science College Alandi (D) Pune

2024 - 2027

B.Sc. - Information Technology | CGPA: 9.15 / 10

Vishwakalyan Jr.College, Pune

2024

12th | MSBSHSE | Percentage: 55.50 / 100

Podar International School, Pune

2022

10th | CBSE | Percentage: 73.30 / 100

INTERSHIPS

EduSkills Academy

31 Aug, 2026 - 30 Sep, 2026

Python Fullstack Developer

Key Skills: Bootstrap CSS MySQL Django Python HTML5 JQuery

Gained hands on exposure to full-stack web development through structured learning and practical assignments.

Developed responsive web interfaces using HTML, CSS, Bootstrap, JavaScript, and jQuery.

Worked with Python and Django for backend development, including models, views, templates, routing, and authentication.

Learned MySQL, SQL, database design, and CRUD operations, including integrating databases with Django applications.

Completed weekly assessments, project documentation, assignments, and a final assessment as part of the internship program.

InAmigos Foundation

21 Aug, 2026 - 03 Sep, 2026

Web Developer

Key Skills: CSS SEO HTML5 Auditing Figma UI Development

1. Developed and presented web design and digital solutions using web development, AI-assisted tools, and Figma.

2. Conducted UI/UX website audits covering navigation, visual hierarchy, CTAs, accessibility, SEO, content structure, trust, and user engagement.

3. Created annotated website improvement reports and Figma prototypes focused on donation, volunteering, impact showcase, campaigns, and testimonials.

PROJECTS

Canteen Connect | Web-Based Canteen Management System

Key Skills:

PHP MySQL HTML5 CSS Database Design and CRUD Operations Web Application Deployment & Hosting

Project Link: <https://canteenconnect.liveblog365.com/>

Developed a full-stack web application for digital canteen ordering and management using PHP, MySQL, HTML, and CSS.

Implemented secure user authentication, customer registration, dynamic menu browsing, cart-based ordering, real-time order status tracking, and an admin dashboard for managing menu availability and order statuses. The system streamlines communication between customers and canteen administrators through automated order processing and live status updates.

ASSESSMENTS / CERTIFICATIONS

GitHub Foundations

Provider: Microsoft

Key Skills: Git GitHub

AI Fluency for Non-Profits

Provider: Anthropic

Key Skills: Nonprofit AI use, ethics

Applies Anthropic's AI Fluency framework to nonprofit-specific work — things like grant writing, program design, and donor communications. Focused on practical, ethical use of Claude for mission-driven organizations with limited resources.

AI Fluency for Students

Provider: Anthropic

Key Skills: Academic AI use, integrity

Teaches students how to use AI for learning, research, and career growth without over-relying on it or crossing academic integrity lines. Built around responsible, effective collaboration with AI tools in an educational context.

AI Fluency: Framework & Foundations

Provider: Anthropic

Key Skills: 4D framework Prompting Basics

The foundational course on collaborating with AI systems effectively, efficiently, ethically, and safely, built with academic experts and centered on a "4D" framework — Delegation, Description, Discernment, Diligence. Covers what generative AI actually is, its capabilities/limitations, and effective prompting

Claude 101

Provider: Anthropic

Key Skills: Chat, Projects, Artifacts, Skills

The entry-level course covering everyday Claude usage — Chat, Projects, Artifacts, Skills, Connectors, Enterprise Search, and Research Mode. Aimed at any knowledge worker, not just developers.

Introduction to PHP

Provider: Simplilearn

Key Skills: PHP syntax

Completed a comprehensive Introduction to PHP course covering server-side scripting, PHP syntax, control structures, functions, and database integration. Gained practical skills in developing dynamic, data-driven web applications using PHP.

Claude Code in Action

Provider: Anthropic

Key Skills: File edits, hooks, workflows

Covers Claude Code, the command-line coding agent — how it reads files, executes commands, and modifies code through its tool system. Also dives into managing context, custom workflows, extending with hooks, and integrating with external services
